## GENERAL INFORMATION AND TERMS

---

Prices printed are List Prices, from which we give a discount to the trade. Discount sheet furnished upon application.

**GUARANTEE.** All of our goods are well made and neatly and substantially packed. We guarantee everything we make, and are willing at all times to make good anything which proves defective in workmanship. *All broken parts must be returned to us by mail or express, prepaid, before claims for breakage can be allowed. We will return goods by mail when sufficient postage is sent to cover cost.*

**TERMS.** Where name does not appear in commercial reports, or rating is unsatisfactory, we require *cash with order* until credit is established.

*No goods will be sent C. O. D. unless one-half the price of the goods accompanies the order.*

**SPECIAL GOODS.** We have every facility for turning out *specialities* in all lines, and invite correspondence from any who desire work of this nature done.

**EXPRESS.** *We pay no express charges.* The only express company that reaches us direct is the American Railway, and all goods ordered shipped by express will be sent by that line.

**WEIGHTS.** All weights noted in this catalog are approximate.

**TO THE TRADE.** We sell only to *manufacturers* and *jobbers*, and all inquiries received from *retailers* will be referred to the nearest *jobber* handling our goods.

**BEVIN BROS. MFG. CO.**

## BEVIN AUTOMATIC ALARM DOOR BELL

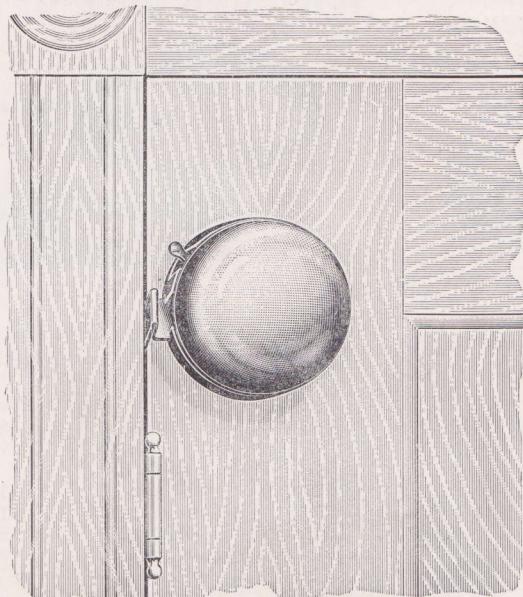

Fig. 828

No. 1. 3 inch, Nickel Plated, Per Doz. \$10.00  
Approximate weight, 6 lbs. per dozen.

This Bell may be applied to any door in a few seconds. When once attached requires no attention.

When the door is closed, this sets the alarm mechanism, so that the instant the door is opened the Bell rings.

Alarm may be rendered silent by moving the small stop lever.

## TRIP GONG BELLS POLISHED BELL METAL

## ROTATING ALARM BELLS FOR CABLE AND ELECTRIC CARS

Foot Pressure. Constructed on an Entirely New Principle. No Complicated Mechanism  
to get out of Order  
Patented January 30, 1894

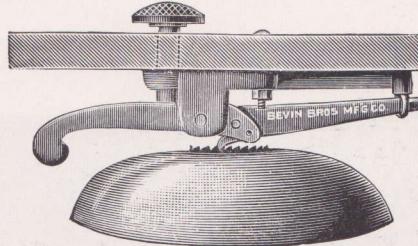

Fig. 178

	Per Dozen	Per Dozen	
9 inches, - - - - -	\$79.00	11 inches, - - - - -	\$110.00

The Gong rotates, and is never struck twice consecutively in the same place. Mechanical experts will appreciate this, as it is a self-evident fact that cracked Gongs are the result of being battered continuously in the same place. We claim that by the use of our simple device, which rotates the Gong, they will last for an indefinite time. To those looking for an Alarm Bell which takes care of itself, and needs no repairs, this Bell will recommend itself.

## UNMOUNTED GONGS PURE BELL METAL

Fig. 180

Stamped Brass and Steel. All Sizes and Styles. Used for Electrical and Other Purposes.  
Special Catalogue on Application

## PATROL GONGS BRONZED STEEL

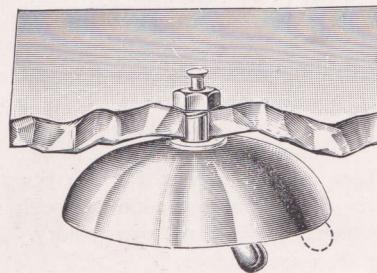

Fig. 179

For Use on Children's Wagons. Designed for  $\frac{1}{2}$  and  $\frac{3}{4}$ -inch Floors

	Per Dozen
3 inch, Gong - - - - -	\$3.60
4 inch, Gong - - - - -	4.20
5 inch, Gong - - - - -	5.40

## MOTOR BOAT BILGE PUMP

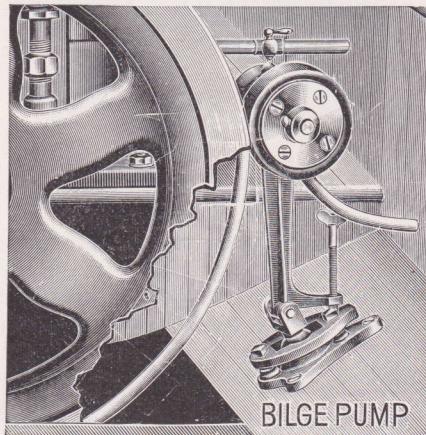

Fig. 556

No. 1. Made entirely of Brass,	Each \$9.00
No. 2. Made of Brass and Iron,	Each 7.00

Weight,  $5\frac{1}{2}$  lbs. each.

A New Priming Grease Cup can be furnished in connection with the Pump at 75 cents Each Net.

Operated by friction when in contact with fly-wheel in motion; adjustable to any floor; will run on either side of fly-wheel.

Capacity five gallons per minute.

Designed to discharge through wall of boat, well above water-line, or over side.

These pumps have been on the market for ten years. We have sold them all over the United States and in foreign countries with very gratifying results. We fully warrant them; money back if not satisfactory. New improvements this year, making them better than ever before.

Buy the all Brass for salt water.

We furnish with each pump 18 inches suction hose, with screen, and 54 inches discharge hose.

Additional hose furnished at 12 cents per foot net.

## BEVIN DOOR BELLS

ROTARY TURN BELLS — smoothest running, simplest and most substantial mechanism found in any Door Bell manufactured.

ROTARY PUSH BUTTON DOOR BELLS — electrical effect without the use of batteries, and without winding.

PUSH BUTTON DOOR BELLS — operated same as electric bells, with same results. A slight pressure of the push button releases the mechanism, and sounds an alarm until released. Bell should be wound occasionally by turning Gong. Very carefully made and assembled.

---

### FINISHES FOR TURNS AND PLATES

- A Nickel Plated.
- B Polished Bronze.
- C Antique Brass.
- CS Antique Brass, Sand Blast Finish.
- D Old Copper.
- DS Old Copper, Sand Blast Finish.
- F Old Brass
- FS Old Brass, Sand Blast Finish.
- G Bright Brass.
- K Old Brass, Relieved.

We can match any hardware manufacturer's finish if sample is sent us, or number given.
